

The NPCC Perspective

(five months into the job!)

Excellence in Policing Conference, College of Policing, Ryton
16 September 2019

Martin Hewitt QPM
Chair, National Police Chiefs' Council

Our Operating Environment Has Changed Dramatically: Have We Really Got It?

- Technology
- No borders
- Public expectation
- Demand v resources
- Most indicators going in the wrong direction
- Local, regional, national
- Fractious society and new protest
- Media and scrutiny

So What Needs to be Done?

- Properly resourced policing system
- Smarter system for governance, accountability and decision-making
- Review and strategic planning
- Public safety agenda - with prevention at the heart

The New Regime....

- The 20,000
- A window of influence
- Criminal Justice
- Wellbeing
- And what for 'performance'?

A Vision for Policing

“A service that upholds our policing ethos whilst adapting and transforming to meet 21st century public safety challenges”

Questions?
