

“What are you talking about?”

29TH & 30TH September 2020

2020 has been dominated by the Covid-19 pandemic and rapid adjustments to everyone’s working and private lives but references to a ‘new normal’ still seem to be premature. This year’s EIP event will take place against this backdrop and in a climate characterised by changing demands for services; uncertainty about funding; the need to work differently; the need to diversify the workforce; and other significant changes including the organisation and oversight of police. With this in mind, keynote speakers offering different perspectives will share their views on current and future challenges for the service.

V19

IBM is proud to provide the technology to support the 2020 Excellence in Policing On-Line Event, with its challenging theme “what are you talking about” and its tradition of focussing on the needs of practitioners now and going forward .

Our vision is to assist our clients to become truly ‘cognitive enterprises’ such that they are;

- guided by intelligent insight
- driven by data, and
- flexible to change

We look forward to the opportunity to discuss with you, your journey to a Cognitive Enterprise.

At the conference we will talk about our partnership with Avon and Somerset police where we are using Robotic Process Automation to reduce human effort to enable additional focus on quality of service for the public and in support of victims of crime. We will also touch on our approach to Dynamic Delivery and the tools and approaches we have deployed to enable 95% of IBM work to be delivered without using IBM offices.

www.ExcellenceInPolicing.org.uk

The EIP20 On-Line Event is organised by the National Police Chiefs’ Council Performance Management Coordination Committee (PMCC) in association with the College of Policing.

PMCC reserves the right to alter the details and content of the event.
